This game is a minigame created by me, over the last months I grew very many pixel art skills. Surely this didn't come along a lot of my free time, but I really enjoyed a lot creating this game. I took as a challenge, and I developed much more with just this game. Of course, could be much more polished, funny and more complicated but this game (and this project) was a great fun for me. So I really hope you'll like this game, and enjoy it as much as I did. I really hope you'll enjoy this game, I really spent some time developing it. So I hope you won't be disappointed, whether you're appreciate it or not. If you have comments, suggestion or criticize, just direct them to this comment

After a 4 year hiatus, I finally bought my first house and had been working on a non-gaming related website for about 3 months or so. I rebranded my old logo and reworked the website to link to my new business. Then recently I started working on webdesign again! Now I'm in the phase where I'm building websites for friends, coworkers and have even created a few niche websites for people too. In the next couple of weeks, I'm planning to build a website to launch my own personal gaming channel someday. I hope you guys enjoyed my first video and that I will be able to make more of these videos in the future. Please let me know if you have any suggestions or comments. ALL things do to my eyes.....
